Everyone Is Special

- We live in a world where every single person is unique.
- We all have something in us that is different.
- Life would become boring if we all are same and think alike. So, the differences are to be treated as uniqueness.
- A family is a unit based on love and trust and everyone should have the freedom to express their feelings.
- We must look after each other, especially the younger siblings and the elderly relatives.
- We may have differently-abled members in our family. We should love them equally.
- Our pets are also members of the family. We must be kind and considerate towards them.
