

**Subject: EVS**

**Chapter 16: Air and weather**

**Date: 01.11.2021**

**Week 15: Day 1 Monday**

**Objective: Students will learn about weather and different forms of weather.**

**Topic: Air and weather (Page no. 118)**

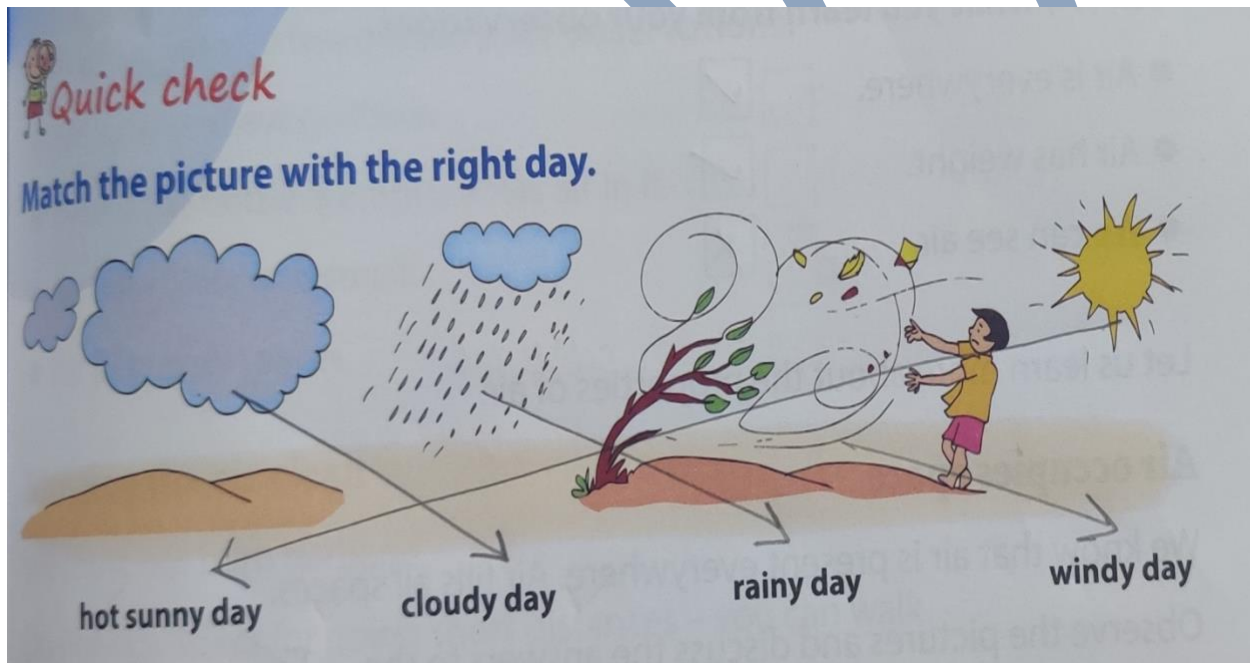

- The condition of air around us is called weather.
- Weather changes through the day.
- Weather is not the same day to day.
- When a strong wind blows, we have a windy day.
- Trees sway and dust flies around on a windy day.
- Sometimes we have a hot and sunny day.
- We feel very thirsty on a hot day.
- We use an umbrella or wear a cap when we go out.

**(Page No. 118)**

- Sometimes, we see clouds in the sky.
- The sun is behind the clouds.
- It is cool and pleasant on such a cloudy day.
- If we have dark clouds in the sky, we may have rain.
- A rainy day is wet and cool.
- We must wear a raincoat if we go out on a rainy day.

**Quick check(Page No. 119)**

**Directions:** Guide the students to understand and revise the same as taught in zoom class.
