DRAWING DIFFERENT SHAPES:

We can draw different shapes in Paint. The readymade shapes are available in the **shapes** group as per our need.

Figure 7.9: Ready-Made Shapes

Flipping the Picture:

Flip means to rotate or turn the selected picture horizontally or vertically.

- ❖ Click on the **select** tool and select the picture.
- ❖ Select the **Rotate** option in the **image** group on the **Home** tab.
- ❖ A list of options will be displayed for changing the rotation or flipping.
- ❖ Select the desired option and the same effect will be applied on that picture.

Figure 7.10: Using Flip and Rotate Option

Resize/Skew the Picture:

The size of the picture can be increased or decreased vertically or horizontally.

- ❖ Select the drawing by covering its boundary using the **Select** tool.
- ❖ Select the **Resize** option in the **image** group on the **Home** tab.
- ❖ Specify the **Resize** in "Percentage" or "Pixels" and **skew** in degrees for both **Horizontal** and **Vertical** in the respective boxes, according to your requirement. Click on **Ok**.

Opaque and Transparent in Paint:

Opaque:- In Ms Paint , by default the background colour of a text box is transparent. To change the background colour of the text box, Follow these steps:

- ❖ Select the **Text** tool from the **Tools** group on the **Home** tab.
- ❖ Choose the text box, whose colour you want to change.
- ❖ Click in the **Opaque** button present in the **Background** group
- ❖ Select the **color2** button from the **colors** group and select the desired background colour.
- ❖ You will observe that the selected colour will reflect in your text box.

Transparent:- on selecting the **Transparent** option, only the text colour will be the same in the text box as is selected in "color1" box. The background colour of the text box will be transparent.

- ❖ Choose the text box where you want to apply the **Transparent** effect.
- ❖ Select the **Transparent** option from the **Background** group.
- ❖ You will observe that the text will have the selected colour but the background colour of the text box remains same as that of the drawing screen.
