G.D.GOENKA PUBLIC SCHOOL

Subject:Math Date: 15-03-2022

Aspect: Supporting content

Topic: Numbers from 1,000-10,000

Chapter no.1(One) Page no.015

Note: This pdf is not to be printed.

(Group -2)

Learning outcomes: Students will be able to compare numbers using greater than,less than and equal to sign.

Comparing 4-digit numbers

*The number with greater number of digits is greater than the number with fewer digits.

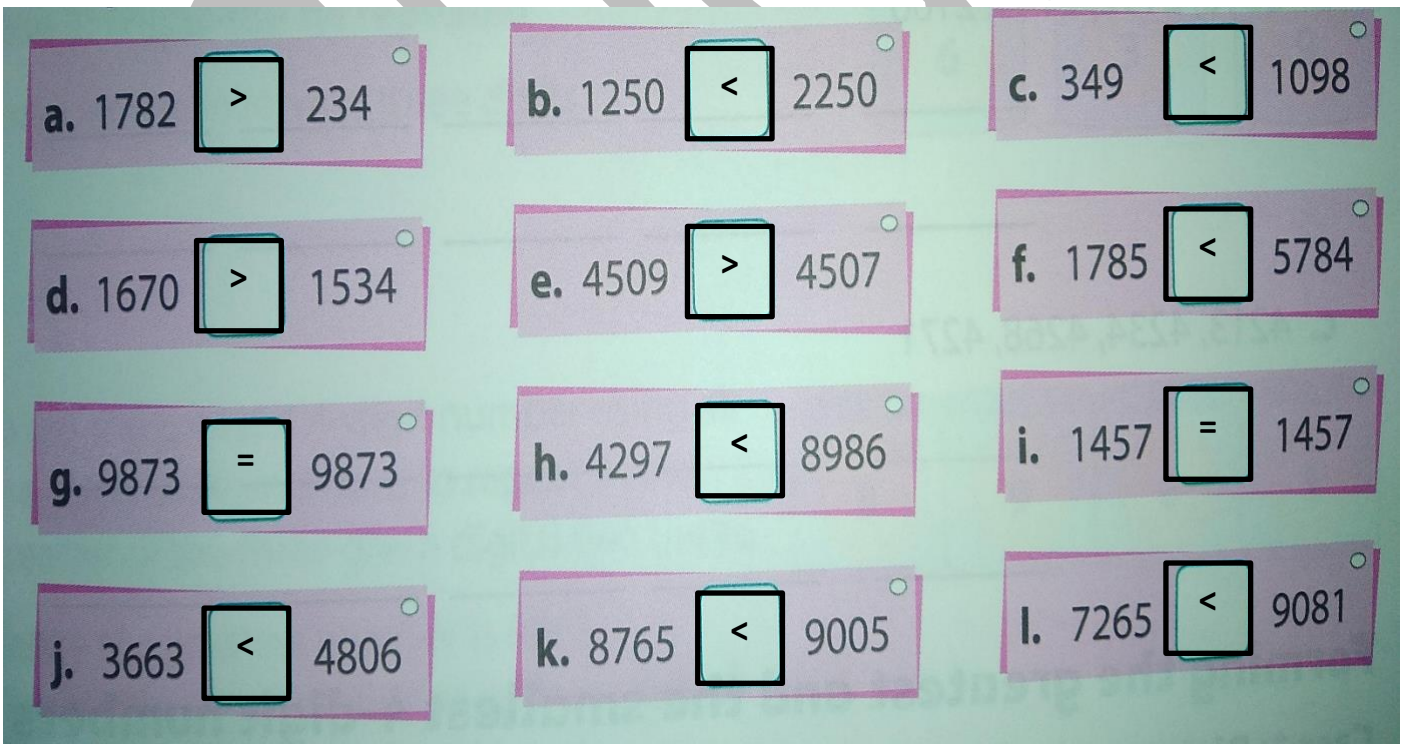
*If the numbers to be compared have same number of digits, then compare the digits at the highest place. The number having greater digit is also greater.

*If the digits in the highest places are same,then start comparing digits of the next place. Conclude where you find the comparison.

> Means greater than < Means less than = Means equal to

Exercise 1.2

Q.1. Compare the following sets of numbers. Use symbols >,< or =.



Note: Students are instructed to do Q.no.1 of exercise 1.2 of page no.015 on maths text book.
