Education is not only a tool for the development of individuals, communities and nations. It is the foundation for our future. It is empowerment to make choices and it emboldens the youth to chase their dreams."It is our mission to empower children by discovering leadership in each of them and make them productive and committed citizens, who could bring humanitarian changes in the world. Our teaching fraternity nurtures these qualities quite zealously. We, educators being facilitators, have always encouraged every child to develop in their special field of interest. We have realised the fact that every student does not have the same talent and so each one will achieve success differently. G.D. Goenka Public School promotes and encourages children to take part in their areas of interest through various Sports and Co-curricular activities at inter-school, district, state and national levels. It is a moment of immense joy and pride to witness the enthusiasm, vibrant talent, dedication and sportsmanof our young learners. Dear Goenkans remember "Winning is wonderful but participation is amazing."
