	VIII	Use of different health equipment's and demonstrating their use	Designing and painting on wooden coaster. Material Required: wooden coaster(saucer size), acrylic colour, paint brushes.	What are circuits, Closed & Open Circuits, Drawing Circuit Diagrams. Ohms Law Activity: Using an LED, battery and resistor, create a circuit in which the resistor limits the current to safely light the LED. Calculate the current flowing through the circuit and measure the voltage at different points using a multi-meter. Then, calculate the expected values using Ohm's Law and compare them with the measured values to verify the results. Material used: Bread-board, M-M Jumper wires, 9v Battery, LDR Sensor, BC547 Transistor, 1K ohm Resistor, 3v LED	Identification of client and understanding small businesses
